PRODUCT DESCRIPTION:

Amino Max from SportPharma is a complete, full spectrum amino acid supplement. Rich in potent, efficient peptide-bonded amino acids for greater assimilation, Amino Max is also complete. Each tablet provides 2g of protein in the form of free form and peptide bonded amino acids, including all the essential amino acids (EAA), as well as all three branched chain amino acids (BCAA). Amino acids are the building blocks of protein and they play a critical role in the repair, growth and development of muscle tissue. Amino Max's amino profile is uniquely suited for helping to ensure optimal muscle anabolism and helping to maintain a positive nitrogen balance. Vitamin B6 has been added to help absorption.
