## PRODUCT DESCRIPTION:

SportPharma CARB Max is a high quality, balanced carbohydrate supplement. At its core is a specialized Quad Carb blend comprised of fast and sustained-released carbs—waxy maize, maltodextrin, d-glucose and trehalose. This dual action blend of high-molecular weight and low-molecular weight carbohydrates helps to ensure a steady flow of glucose into the blood stream, allowing them to maintain their anabolic nature. CARB Max is designed to decrease muscle catabolism, enhance muscle and liver glycogen resynthesis as well as assist in promoting faster recovery and sparking higher intensity training. Added electrolytes ensure proper rehydration and replacement of key electrolytes that are lost while training. Whether you're an endurance athlete or bodybuilder, the addition of carbohydrates during training can help sustain energy levels and assist to maximize overall strength output and athletic performance. CARB Max is simply a great tasting way to get more out of your workouts.
